# Create a Content Page - Activity

Time to practice what you've learned about the Rich Content Editor. For this activity you will be creating a practice content page in a module. You can choose any topic that interests you. To complete this activity use what you've learned about the 3 components of the Rich Content Editor. Here is an image to remind you.

Instructions:

1) Add a new Content Page to a Module
2) Title the Page as "Practice Content Page"
3) Add the five following elements to your page:
   a) Title
   b) Text
   c) Image (from Flickr, or your computer)
   d) Video (Films on Demand, Youtube, or Media Recorder)
   e) Link (external or within the course)

*If you need assistance, ask a neighbor first, then raise your hand.
*When you are done, raise your hand and I will come do a quick check for understanding.

If you need a quick overview, access the Rich Content Editor overview video located in Module 5 of the Training Course.
